

September 2019

Dear Parents,

Welcome to the 2019-2020 school year! I am Mrs. Mulligan and I will be your child's science teacher. I am looking forward to engaging all of your children in science and introducing them to new and exciting discoveries! It is required that your child bring a science notebook, science folder and at least 2 pencils with them to class each day.

The grade 3 unit topic this year is *Balancing Forces*. It is part of the NYC Amplify Science Curriculum. Attached you will find key vocabulary words that we will be using throughout this unit. This list will be beneficial to the students when studying for upcoming exams. You will also find your child's science goals for the upcoming unit. You will receive additional correspondence as to when the first test will be, review sheets, home assignments, etc. These will also be posted to Home Connect shortly.

If you ever need to get in touch with me, please send in a note with your child or call the school and I will be sure to get back to you as soon as I can.

Thank you in advance for your continued support!

Mrs. Mulligan
Science Cluster Teacher
