

MATH-TERY

A DISTRICT 30 PARENT WORKSHOP

FRIDAY, MAY 11, 2018

9:00am – 11:00am

Q397 District 30 Pre-K Center

32-50 37th Street, Astoria

Flexibility with numbers has become the basis of math education today. How can we prepare our kids minds for that concept when we just memorized everything? Providing positive and supportive emotional experiences with Math are instrumental in building students' confidence with the subject. How can we give these experiences to our kids when Math stressed us out?

In this “on your feet, laughter filled” workshop we use the concepts of Improv to play with numbers and shapes, to see Math all around us and to celebrate the challenge of figuring things out as much as the triumph of getting the right answer.

Kindly register by Tuesday, May 8th.

Phone 718-391-8390 or Email bsharma@schools.nyc.gov

Light refreshments will be served.
